PUNJAB STATE POWER CORPORATION LIMITED

Office of Chief Engineer, Guru Gobind Singh Super Thermal Plant, Rupnagar

INVITATION FOR EXPRESSION OF INTEREST (EOI) FOR CONSULTANCY FOR ADDRESSING ENVIRONMENTAL ISSUES OF GGSSTP, ROPAR WITH PPCB.

EXPRESSION OF INTEREST:

EOI is invited from the interested Consultancies to make Environment Management Framework for Guru Gobind Singh Super Thermal Plant Rupnagar. **Scope of work** will be as below :-

1. Site visit by the technical expert for inspecting all the environmental aspects of Guru Gobind Singh Super Thermal Plant Rupnagar.
2. Updating & sharing various environmental legislations, standards and related issues.
3. To identify the key important points as per the various conditions mentioned by Pollution Control Board in the CTE/EMP, CGWA approval etc. and to provide guidance to implement the same as per the prevalent law in force.
4. General guidance on miscellaneous environmental issues as maintaining green belts; evolving environmental policy; rain water harvesting; energy conservation including helping in evolving an environment management plan from a long-term perspective.
5. Preparation and submission of Environment Due Diligence report after inspecting all the environmental aspects of Guru Gobind Singh Super Thermal Plant.
6. To reply to the queries raised by Pollution Control Board like show cause, letters or making presentation/ appearance on behalf of Guru Gobind Singh Super Thermal Plant Rupnagar as and when required.
7. Consultancy will get the Consent To Operate (CTOs) for GGSSTP under Air and Water Acts.
8. Consultancy will suggest remedial measures to the industry for providing adequate pollution control equipment in order to stop emitting black smoke during cold start-up of the industry.
9. Consultancy will guide in the work of cleaning the sludge and settling tank used to treat the coal yard leachate and make arrangements for pumping the treated waste water into the ash dykes through coloured pipelines.
10. Consultancy will guide for the repairing, painting and maintenance work of APCDS in the CHP area.
11. Consultancy will suggest in the installation of temperature gauges at input & discharge points of once through Cooling (OTC) System.
12. Consultancy will check and guide in relocation of sampling port hole and OCEMS at the appropriate location as per the consent to operate obtained by the TPP under the Air Act, 1981.
13. Consultancy will suggest for taking necessary actions so as to bring the PM emissions in the flue gas within the prescribed standards of 100 mg/Nm³ for its unit nos. 3 and 4.
14. Consultancy will check that no treated/untreated effluent from neutralization, including effluent generated from leakage of acid/lye tanks is discharged into river Sutlej directly/indirectly and instead is utilized in the plantation area within the plant.
15. Other than Environment Due Diligence report which shall be prepared by the consultant, the consultant's role shall be limited to providing technical guidance and advice in light of prevalent legislation.
16. General guidance on waste minimization.
17. Identification of any missing approval.

NOTE:

- i) Firms should have valid registration with QCI NABET or QCI NRBPT.
- ii) Firms should have In-house NABL accredited lab.
- iii) Firm should have experience in engineering solutions for environmental pollution.
- iv) Firm should specialize in analytical and consultancy services, providing in-depth in-depth insights based on meticulous lab studies.

PROCEDURE FOR SUBMISSION OF EOI
